

**Department of Early Learning**  
**Early Support for Infants and Toddlers Program**  
**Local Lead Agency Determinations Report to the Public**  
**July 1, 2010 – June 30, 2011 (FFY 2010)**

The Individuals with Disabilities Education Act (IDEA) requires each state to have a State Performance Plan (SPP) to evaluate its efforts in implementing the requirements and purposes of IDEA, Part C. The SPP must address how the state plans to make improvements. The identification of activities, timelines, and resources needed to make needed improvements must also be addressed in each state's SPP. In addition, each state must submit to the Office of Special Education Programs (OSEP) an Annual Performance Report (APR). Each state's APR is used by OSEP to evaluate the state's progress in improving compliance and/or to evaluate its progress in improving performance/results. APR data is used by OSEP to determine if the state (1) Meets Requirements, (2) Needs Assistance, (3) Needs Intervention, or (4) Needs Substantial Intervention in implementing the requirements and purposes of IDEA, Part C. Each state, receiving IDEA, Part C funds, is evaluated annually and assigned to one of these categories, based upon APR data.

IDEA is also requiring each Early Intervention State Lead Agency (the Early Support for Infants and Toddlers [ESIT] program) to evaluate annually the status of each Early Intervention Local Lead Agency's (County Contractor's) implementation of IDEA, Part C, programs and services. Local Lead Agency APR data must be used by the Early Intervention State Lead Agency, to determine if the Local Lead Agency (1) Meets Requirements, (2) Needs Assistance, (3) Needs Intervention, or (4) Needs Substantial Intervention in implementing the requirements and purposes of IDEA, Part C.

Each Local Lead Agency's data is aggregated by ESIT, for APR reporting purposes. ESIT must now disaggregate and evaluate this data by Local Lead Agency, and then determine the status of each Local Lead Agency's implementation of IDEA, Part C. In accordance with federal requirements, ESIT has established its determination process and is using the following data in making local determinations:

1. Compliance indicator data:
  - 1 – Timely services,*
  - 7 – Timely evaluations and meeting the 45-day timeline,*
  - 8A – Transition plan steps and services,*
  - 8B – Timely notice given to the school district when potential transition is to occur, and*
  - 8C – Transition planning conference*
2. State selected related compliance indicators
  - Annual Individualized Family Service Plans (IFSPs)*
  - Review Individualized Family Service Plans (IFSPs)*
3. Correction of noncompliance, within one year from identification, *pertaining primarily to indicators 1, 7, 8A, 8B, and 8C;*
4. Submission of timely, valid, and reliable data; and,
5. Citizen complaints filed and/or due process hearings held.
